

Handcrafted from selected botanicals

BALDWIN'S®

PREMIUM DISTILLED GIN

In celebration of the Flemish Count **Baldwin** (1172-1205), who became the first Latin Emperor of Constantinople, master-distiller **Filip Braeckman** has created this well-balanced, smooth, and refreshing handcrafted premium distilled gin. He only uses the finest **pure grain spirit**, the renowned **Oudenaarde's Brewing Water**, and a unique infusion of **14 botanicals**, including three botanicals native to the **Flanders** region: **Roman Chamomile**, **Elderflower** and **Angelica**. Each bottle of **Baldwin's Premium Distilled Gin** is handcrafted by our master distiller in the family-owned grain distillery, which was founded in 1918, and follows an artisan procedure. The botanicals are left to macerate for 24 hours in a mixture of the finest **pure grain spirit** and **water** from the distillery's own bore hole, which has its own artesian water supply. Then, the **slow and un rushed** small batch distilling process begins, allowing the subtle aromas to enrich the alcohol vapours. Our master-distiller cuts off the **heart** from the foreshot and aftershot, relying completely on his **fine nose**, his instinctive feel for **temperature control**, and his unsurpassed knowledge of **aromatic yield**. After **resting**, nothing else but the locally sourced Oudenaarde's Brewing Water is added to the fully aromatic and smooth heart. With a strength of **46% ABV**, **Baldwin's Premium Distilled Gin** is carefully bottled in numbered bottles, each with a **heavy duty steel cork top** embossed with the cross of the **Knights Templar**.

Flavour:	Complex and dry
Perfect Serve:	Neutral tonic and pomegranate seeds

Tasting notes

The nose opens fresh and crisp with a spicy lead from the juniper, supported by the mellow spiciness of coriander and liquorice, and surrounded by herbaceous and floral hints from chamomile, followed by citrusy, yet zesty freshness.

The palate is pleasantly dry with overtones of orange marmalade bursting out in a complex harmony of flavours.

The finish itself is very warm, with a long end elegant dryness, and well-balanced faint spiciness from the hint of star anise in the background.

The unique and floral smoothness of Baldwin's Premium Distilled Gin is perfect to enjoy neat or over ice. The intricate fresh character and the well-balanced dryness are revealed in a refreshing Gin & Tonic or a daring Dry Martini, and its slightly spicy complexity lifts every classic or contemporary cocktail to the next level.
